Banking on pets' blood

MAN'S best friend is being urged to give generously as a blood bank for dogs launches its first round of appeals.

Pet Blood Bank UK, supported by Vets Now, is the first organisation to collect, process, store and supply pet blood.

The unique service means that dogs across Sheffield will have access to blood through their veterinary practice - providing them with treatment.

The blood drive in Sheffield will take place at the Peak Veterinary Practice in Woodseats on Saturday June 30 at midday. A number of conditions apply. Log onto www.pet-bloodbankuk.org or call 01509 232222..
